Thanksgiving Day Service

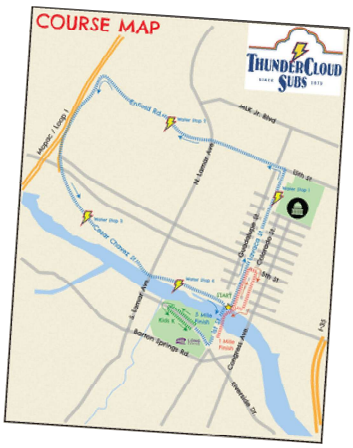

The Thanksgiving service at Christian Science churches

November of 1878 was the first time Mary Baker Eddy, the Discoverer of Christian Science, held a Thanksgiving service with a group of students of Christian Science--long before a physical church edifice had been built. There is plentiful evidence in her writings that she loved this holiday, and considered it a very important one to be observed. We hope you will join us in sharing our gratitude to God for all the healing we have experienced this year at our 11 AM service on Thanksgiving Day.

I am grateful to you for giving to the sick relief from pain; for giving joy to the suffering and hope to the disconsolate; for lifting the fallen and strengthening the weak, and encouraging the heart grown faint with hope deferred. ...

These two words in Scripture suggest the sweetest similes to be found in any language — rock and feathers: "Upon this rock I will build my church;" "He shall cover thee with His feathers." How blessed it is to think of you as "beneath the shadow of a great rock in a weary land," safe in His strength, building on His foundation, and covered from the devourer by divine protection and affection. Always bear in mind that His presence, power, and peace meet all human needs and reflect all bliss.
